

Remote District Subsidy Policy

The Shasta SELPA defines a remote district as any Local Education Agency (LEA), district or charter more than 50 miles from the Shasta County Office of Education located at 1644 Magnolia Avenue in downtown Redding.

Geographically isolated districts cannot use off-the-top regional programs due to their remote location. Additionally, these schools are not able to utilize the buses the SELPA purchases for the County Office. The SELPA provides a subsidy to help offset the cost the districts incur providing the necessary small program for students that would typically participate in regional programs.

Each budget year, the SELPA board determines the amount of funds available for the remote districts. The budgeted amount is based on the historical subsidies. In the 2023-24 school year, those amounts were:

- Total \$40,000
 - General Remote \$30,000
 - Transportation \$10,000

- ERMHS \$60,000
